WORK EXPERIENCE

Front-End Developer Pilot Simple Software

Dec 2021 - Present

- Redesigned complex enterprise workflows into faster, clearer and more efficient front-end interfaces using **HTML, CSS**, **JavaScript**, **jQuery**, and **Bootstrap**.
- Strengthened form reliability with precise **jQuery Validation**, structured field rules and consistent alert flows, reducing user mistakes.
- Enhanced large data modules using **jQuery DataTables**, improving filtering, sorting and overall performance for high-volume business use.
- Converted UI/UX designs into **stable, responsive, production-ready layouts**, ensuring smooth behaviour across desktop, tablet and mobile using **Bootstrap** and **jQuery**.
- Built reusable **Bootstrap-based components** and standardized UI patterns, reducing development time and ensuring consistent design across modules.
- Improved data accuracy by aligning front-end bindings with backend APIs, resolving workflow mismatches and ensuring clean data flow.
- Simplified multi-step processes by reorganizing layouts and removing unnecessary clicks, creating clear and practical user paths.
- Improved code maintainability by cleaning **DOM** structures, applying proper hierarchy and using logically organized components.
- Identified usability gaps early and implemented **direct, effective UI fixes** that made system interactions faster and more intuitive.
- Designed user flows, wireframes and prototypes in **Figma**, ensuring each screen matched real operational needs and business rules.
- Developed responsive websites using **HTML5, CSS3, Bootstrap and JavaScript**, ensuring clean structure and smooth performance across all devices.
- Built and customized **WordPress, Shopify and Magento** websites, improving product display, navigation flow and overall user experience.
- Designed **banners, product images, sliders, ads and promotional creatives** using **Wix and Canva** for multiple client brands.
- Performed **content updates** including product uploads, pricing changes, category adjustments and homepage content refresh.
- Improved UI layout using **clean HTML/CSS coding**, fixing spacing, responsiveness, grid alignment and mobile usability issues.

EDUCATION

Bachelor of Engineering
Computer Science and Engineering
Dr. Sivanthi Aditanar College of Engineering
Tiruchendur
2015 – 2018

Diploma in Computer Networking Engineering
St. Xavier's Polytechnic College
Seydunganallur
2013 – 2015

SKILLS & TOOLS

Front-End Development
HTML5, CSS3, Bootstrap
JavaScript, jQuery
ASP.NET Razor
jQuery DataTables
jQuery Validation & Alert Libraries
Responsive & Cross-Browser Development
UI Implementation from Figma to Code

CMS & E-Commerce
WordPress
Shopify
Magento

UI/UX
Wireframing
User Flows
Layout Structuring
Interaction Clarity
Prototyping
Basic Usability Fixes
UI Improvements

Design Tools
Figma
Canva
Wix

Productivity & Tools
Git / GitHub
Google Workspace
Microsoft Office
Asana
DNS, Hosting,
SSL Setup
Basic API Integration
Testing

- Optimized front-end performance by **cleaning HTML/CSS structure, compressing assets and removing code bloat**, resulting in faster load times.
- Managed **domain setup, DNS configurations, SSL certificates, hosting environments and deployment processes** for client websites.
- Conducted comprehensive **UI testing and cross-browser checks** to ensure consistent experience across Chrome, Edge, Firefox and Safari.
- Delivered ongoing website maintenance, visual updates, page improvements and seasonal creative refreshes to keep sites updated and user-ready.

IT Support Engineer - Smart Media Network
Jan 2019 - Nov 2021

- Supported **fiber-based internet systems**, resolving connectivity issues, network drops and user-side service problems with fast turnaround.
- Installed and configured **routers, ONTs, switches and network equipment**, ensuring stable fiber connectivity across customer and office setups.
- Managed **DHCP, DNS, bandwidth settings and network sharing**, keeping internet services stable for daily operations.
- Performed **fiber line checks, signal tests and troubleshooting** to identify and fix last-mile issues quickly.
- Handled **hardware upgrades, device replacements and software setups** for users across multiple departments.
- Maintained IT **documentation, SOPs and troubleshooting guides**, reducing support time and preventing recurring service issues.
- Conducted routine **network maintenance, backups, firmware updates and system security checks** to keep infrastructure reliable.
- Assisted field teams in **network deployment, configuration and service activation** for new fiber internet customers.
